

AF4 Study Timetable

- This is YOUR study timetable to keep you on track towards passing the exam.
- Each week you should read your module notes, complete your workbook, watch your video tutorials and have some fun with our online quiz. Then answer your exam style questions and upload your completed answer by Monday morning.
- Our experts will sample mark a selection of the completed exam style questions and provide feedback via the Forum.
- We will upload the written model answer and a video tutorial for the exam style questions each Monday (as outlined below) for you to self-assess. This helps develop your understanding of how to lay out your answers and gain maximum marks in the exam.
- We will send you an email every **Tuesday** to remind you and keep you on track with what module you are studying in line with the dates below.
- Use our Investments FORUM to contact our experts, share knowledge with peers and get feedback.

Module	Module number	Week Commencing	Exam style question (model answer and forum review with tutor - Mondays)
