

AF5 Study Timetable

You will be fully supported throughout your studies by our expert via our Financial Planning forum. Please post any questions or queries on the Forum for expert guidance and group discussion.

-) The objective of this exam is to be able to demonstrate and apply knowledge, skill and understanding of holistic financial planning based on a complete client scenario.
-) This exam is about report writing and you will be asked how you would address specific client issues within the context of a report.
-) The activities within the exam are task-based questions that broadly follow the financial planning process, and this is the structure you will follow with our weekly study plan.
